

**Borough of Wyalusing Comprehensive Plan
Student Survey
June 2016**

The Borough of Wyalusing is working with an urban planner to update its **Comprehensive Plan**. You might be wondering, “What is an urban planner... and what is a comprehensive plan?” An urban planner is someone who works with Boroughs, townships and cities to understand its housing, business, transportation, parks and water issues (and more), and think of ways to make those Borough, towns and cities even better places to live and work. A Comprehensive Plan is a document that will describe the Borough as it is now, describe how its residents—including you—would like to see it change, and then figure out what actions the Borough should take in order to bring about that change. The Steering Committee is a group of Wyalusing residents who wanted to get your input, because your opinions are important. What would you change to make Wyalusing better for you? Feel free to tell your parents about this project, too!
